

**Helps Control the Spread of Odors, Mold, Mildew, Germs, and Allergens.**

**HygiClean** is safe to use on all types of surfaces, including: wood, cloth, canvas, fiberglass, vinyl, and paint. It will not deteriorate or discolor canvas, seams, snaps, carpets, or clothes.

**Removes Mold and Mildew Stains using Safe, All-Natural Australian Tea Tree Oil**

**HygienicAire™** is formulated to exacting standards to **clean and deodorize indoor air**. You can place an open jar almost anywhere in your home, car, gym locker, or office and it will help clean, deodorize, and freshen the air.

**HygienicAire™** Delivers the simplest, most effective solution in cleaning and deodorizing your ventilation system without the need for any mechanical apparatus or alteration to your existing system. Passively releases 10-45 ug of tea tree oil per cubic meter of air, well below the indoor air quality guidelines of 500 ug/cubic meter of air.

**HygienicAire™** Contains quality **Australian Tea Tree Oil**, the essential oil obtained by steam distillation of the leaves of Melaleuca Alternifolia, a native species found in Northern New South Wales, Australia.

**Tea Tree Oil** is known as a broad spectrum **fungicide/germicide/biocide**, which is effective against a very wide range of bacteria, yeasts, mold, and fungi at very low minimum inhibitory concentrations.

**Tea Tree Oil** is a completely natural product obtained from a renewable resource.

**HygiClean** is perfect for bathrooms, carpets, clothes, basements, walls, kitchens and roofs, power boats, sailboats, kayaks, tents, outdoor gear, etc.

**HygiClean** normally requires NO scrubbing and substantially reduces time spent removing mildew.

**HygiClean** is formulated using the latest evolution in modern chemistry. This unique product has been tested world wide in many different and difficult environments with excellent results.

**HygiClean** is made with the highest grade of ingredients and has excelled where many other products have failed.

**HygiClean** will remove mildew and mold stains in one application, in most cases. Some types of mold, however, may require light scrubbing or a second application.

**HygiClean** can be used as a preventive measure in dark, damp locations where mildew may develop.

**HygiClean** is the only commercially available mildew stain remover for the marine industry that does not contain chlorine or bleach. The result is a highly effective and ecologically friendly product. Keep out of reach of children and pets.
